EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Krasnow, Reg. No. 34,203, on December 1st, 2005.

The application has been amended as follows:

IN THE CLAIMS:

Claim 1, line 7: before the term "target" add the phrase: -- first portion of the moving --

Claim 1, line 10: after the term "shutter" add the phrase: -- control system comprising a shutter, said shutter --

Claim 6, line 1: replace "claim 1" with: -- claim 5 --

Claim 11, line 4: delete the term "first".

Allowable Subject Matter

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor reasonably suggests an automated target inspection system where a sensor, placed adjacent to a scanning zone formed by a radiation source and detector, senses when a first portion of a moving target has passed through the scanning zone and when a second portion of the moving target is about to enter the scanning zone, and then sends a signal to the automatic target inspection system after the first portion of the moving target passes the sensor, where the signal activates a shutter control system to initiate a scan of the second portion of the moving target as required by the combinations as claimed in each of claims 1, 11 and 21.

The best prior art of record, Bermbach et al. (US 6,031,890), teach the practice of sending a signal to an automated target inspection system to initiate a scan of a second portion of a moving target *before* the first portion of the moving target passes the sensor rather than *after* the first portion passes the sensor.

Claims 2-10 and 12-20 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
